BID
SINGLE CHIP SEAL & CHIP SEAL W/BOILER SLAG - 2015

General Information for Bidders

Sealed bids must be received by 12:00 Noon, Monday, June 29, 2015, at the Wascott Town Hall as stated in the public notice and advertisement for bids. **All bids shall be placed in a sealed envelope and be clearly marked as “2015 Single Chip Seal & Chip Seal w/Boiler Slag Bids”**. Bids may be mailed to: Jeannette Atkinson, Clerk/Treasurer, Town of Wascott, PO Box 159, Wascott, WI 54890.

Bids will be opened prior to the Regular Town Board Meeting on Tuesday, July 7, 2015, at 5:30 p.m. and approval on the award of the contract(s) will be considered at 7:00 pm. Bids may be considered for acceptance for a period of 30 days after the bid opening.

The bid must comply with all material requirements of the bid invitation and specifications. The Town reserves the right to reject any bid determined by the Town to be nonresponsive. The Town reserves the right to reject any or all bids or portions of bids as determined to be in the best interest of the Town of Wascott. The Town maintains the right to determine the number of miles to be performed.

Depending on the costs of the proposed projects and budget limitations, the Town of Wascott may need to eliminate some roads from a final contract. The Town reserves the right to withdraw roads or segments of a roadway prior to bid award.

A written notice of award will be given to the successful bidder. The bidder(s) are required to execute the public contract and furnish required certificates of insurance within ten (10) calendar days from the date of the notice of award.

Insurance – Prior to beginning work, the contractor shall furnish and deliver to the Town Clerk a certificate of insurance for worker’s compensation and an umbrella certificate of liability and property insurance in the minimum amount of three million dollars, and shall notify the Town Clerk immediately of any cancellation or change in insurance coverage.

Traffic Control – The contractor will be responsible for all temporary traffic control, including furnishing and maintaining all signs, flags, flag-persons, barricades and lights where required, to protect the safety of the traveling public, all in accordance with the Manual on Uniform Traffic Control Devices (MUTCD) currently adopted by the Federal Highway Administration and the Wisconsin Department of Transportation supplement. All work will be done under traffic unless otherwise directed by the Town.

Payment Schedule - Payment shall be made within 30 days of receipt of a properly completed invoice or receipt and acceptance of the property or service, or in accordance with the payment schedule specified in the public contract. Claims for payment shall be filed with the Town Clerk.

Specifications

Scope of Work to be Performed

1. Seal coat shall be 3/8" Fractured Stone Aggregate or Boiler Slag Aggregate.
2. Asphaltic material used for the seal coat binder shall be CRS-2.
3. The asphalt and aggregate material shall meet WisDOT Roadway Standard Specifications, Section 475 with the additional aggregate requirement of no more than 1% passing through the #200 seive.
4. Any patching of filling work to be completed two days prior to the seal coating by the bidder in accordance with the Town of Wascott's specifications.
5. Immediately before applying the asphaltic material, the existing surface shall be cleaned with a power broom or other suitable equipment to remove dirt, clay, or other objectionable matter.
6. Apply tack coat only when the air temperature is 36 degrees Fahrenheit or more and the surface is dry and reasonably free of loose dirt, dust, or other foreign matter. Do not apply if weather or surface conditions are unfavorable or before impending rains.
7. Tack coat shall be applied at a rate sufficient to provide 70% embedment of the aggregate chip into the asphalt after the asphalt has cured and the road is open to traffic.
8. Cover previously applied material as required to create transverse joints without overlapping.
9. Treated areas shall be closed to traffic until after the initial rolling of the cover aggregate has been completed.
10. Aggregate shall be applied at a rate to completely cover the treated surface but limited to an amount easily embedded in and bonded by the asphaltic material.
11. The surface shall be rolled immediately after spreading the aggregate, beginning at the edges and continuing to the center, lapping 1/2 the roller width on each successive pass. After the initial rolling, perform subsequent rolling until the aggregate is thoroughly embedded and the surface is smooth and uniform in texture. Roller speed shall not exceed 5 mph and care should be taken when reversing roller direction to avoid displacing or loosening the cover aggregate, or damaging the asphaltic material. All rolling shall be completed by pneumatic rollers of good operating condition.
12. Final sweeping or vacuuming of the excess material in the treated area shall be done by the Town of Wascott.
13. Traffic on the newly placed seal coat shall be limited to 25 mph for 24 hours after the application. Temporary speed limit signs shall be posted and supplied by the contractor and shall be in accordance with the Wisconsin MUTCD.
14. All signing and flagmen to be provided by the bidder per Wisconsin MUTCD standards.
15. Work shall be completed prior to September 30, 2015.
16. All work to be done shall be coordinated with the Town of Wascott, giving at least one week notice prior to starting.
17. Bid shall be based on an amount per section road. Bidder to include cost per road section for both types of aggregate when applicable.
18. The Town of Wascott reserves the right to accept or reject any or all bids. They shall accept the bid they deem most advantageous to the Town. The list of road sections is subject to change. Listed distances of road sections to be bid, are estimates only.
