
Gordon–Wascott EMS Annual Report 2016

14511 S. US HWY 53, Gordon, WI. 54838

T: 715–376–2640

Thank you to the town boards of Gordon and Wascott, the community, the members of the fire departments (Gordon and Wascott), and all the members of the service. Your support has been above and beyond what we could ever imagine.

Runs for the year: 143 (47 Gordon, 81 Wascott and 15 mutual aid to our neighboring community's)

In 2016 we added and upgraded some equipment

- New ambulance
- Draw up EPI for all levels of the service
- Our members have been hard at work in upgrading training.
- We have been working on upgrading our AED's and Patient monitoring equipment.

In 2017 we are planning on:

- Purchasing new AED's and Patient monitoring equipment
- Members will be doing their refreshers. Yes we have to refresh every 2 years to keep our skills and knowledge up to date.
- We will be working on becoming our own training center. This will allow us to do training in our communities, cut cost of refreshers and training of members.

We are always looking for volunteers to join our service. If you are interested in becoming an Emergency Medical Responder or Emergency Medical Technician please feel free to call us or stop by the ambulance service.

Thank you for all your support,

Betty Ebert

Director gwems.

Upcoming Events

Open House: August 27, 2017

From 11:00–2:00

Come and see all the members of the service, have some food, and tour our ambulances and facility.

Mission Statement

Providing ambulance service to the residents and visitors of Gordon and Wascott since 1958. Staffed by nationally registered and state licensed Basic Emergency Medical Technicians , Advanced Emergency Medical Technicians with the support of skilled Emergency Medical Responders. Working in cooperation with all area hospitals and advanced life support helicopter services to provide AFFORDABLE emergency and non-emergency transport and medical care.

Under the medical direction of Dr. Patrick McCann – Spooner Health System. There are two fully equipped ambulances in service 24- hours/day, 7-days/week, 365-days/year. Each ambulance is equipped with an Automatic Defibrillator Unit. Both units are ready for emergency and non-emergency transport and medical care.
